

**CHARLOTTE COUNTY PROBATION DEPARTMENT
DRUG/ALCOHOL TESTING POLICIES**

As stated in Condition #10, you are subject to being randomly drug and/or alcohol tested at any time during your term of probation. Currently these are the fees for each test; however, that is subject to change without notice.

Test Performed:	Cost:
Drug Test	\$5.00
Confirmation of positive result	\$12.00 per drug
Alcohol – ETG (sent to lab)	\$14.95
Alcohol – Dip ETG	\$10.00
Alcohol – Breathalyzer Test	NO CHARGE
Alcohol – Swab Test	NO CHARGE

If the terms of your probation include a no alcohol provision the following applies:

Do not visit any place where the primary business is the sale of alcoholic beverages. Sobriety is a primary focus of your probation and maintaining an alcohol free lifestyle is very important in successfully completing your term with the department.

Any alcohol consumption including but not limited to mouthwash, cold remedies such as Nyquil, food preparations, any “nonalcoholic beers” including O’Doul’s, Sharps or any other brand will be considered a violation and will be handled accordingly. Other examples of products that may contain alcohol are: vanilla extract, almond extract, ginkgo biloba and other types of herbal products, hand sanitizers, aftershave, cologne, hairsprays and insect sprays. If in doubt, speak with your probation officer.

It is your responsibility to ensure the products that you consume do not contain alcohol. When in doubt don’t use, consume or apply the product. The use of any product that contains ethyl alcohol is NOT an excuse for a positive test result.
