COURTS OF THE TWENTIETH JUDICIAL CIRCUIT
AMENDED OPERATIONAL PLAN
FOR RESUMPTION OF COURT PROCEEDINGS AND SERVICES:
PHASE 1 & PHASE 2

I. **PHASE 1** – Prior to the issuance of second amended local Administrative Order 2.39 on May 29, 2020 and prior to June 1, 2020, the Courts of the Twentieth Judicial Circuit were in that which is essentially defined as Phase 1, where in-person contact is inadvisable, access to court facilities is extremely limited, and in-person proceedings are limited to essential or critical court proceedings that cannot otherwise be conducted remotely.

A. **PHASE 1 - ESSENTIAL OR CRITICAL COURT PROCEEDINGS** – The following matters are deemed essential or critical court proceedings which the circuit and county courts are required to continue performing during Phase 1:

1. First appearance hearings;
2. Criminal arraignments, as necessary;
3. Hearings on motions to set or modify monetary bail for individuals who are in custody;
4. Juvenile dependency shelter and arraignment hearings, including shelter reviews;
5. Juvenile delinquency detention and arraignment hearings, as necessary;
6. Hearings on petitions for temporary injunctions relating to safety of an individual;
7. Hearings on petitions for risk protection orders;
8. Hearings on petitions for the appointment of an emergency temporary guardian;
9. Hearings to determine whether an individual should be involuntarily committed under the Baker Act or the Marchman Act;
10. Hearings on petitions for extraordinary writs as necessary to protect constitutional rights;
11. Hearings on petitions for judicial waiver of notice pursuant to section 390.01114(4), Florida Statutes; and
12. Hearings related to the state of emergency or the public health emergency, including but not limited to proceedings related to violation of quarantine or isolation, violation of orders to limit travel, violation of orders to close public or private buildings, and enforcement of curfew orders.
13. For Jail Management Purposes:
 - In-custody change of plea hearings that may result in a release

from incarceration.

- In-custody hearings on motions to modify a sentence that may result in a release from incarceration.
- In-custody VOP Advisement hearings that may result in a plea and release from incarceration.

B. PHASE 1 - HANDLING OF ESSENTIAL OR CRITICAL COURT PROCEEDINGS

1. Essential or critical court proceedings shall be handled by the divisional judge, magistrate, hearing officer, or duty judge who would normally hear the matter.
2. When possible, essential court proceedings shall be held remotely using communication equipment.
3. However, these essential or critical court proceedings do allow for in-person court appearances as long as all available methods of “*social distancing*” are being taken to minimize the risk of COVID-19 exposure to individuals involved in the proceedings or the general public.
4. For essential court proceedings involving in-custody defendants, the in-custody defendants shall appear remotely utilizing communication equipment. No inmate housed in any jail facility is to be transported to any courthouse absent a written order from the Chief Judge.
5. Baker Act and Marchman Act proceedings may be conducted remotely utilizing communication equipment as long as the judicial or quasi-judicial officer finds that holding the hearing remotely would not cause a violation of a party’s right to due process.
6. For in-person hearings, the only persons allowed in the courtrooms are parties, attorneys, victims, witnesses, court reporter, court interpreter, court/clerk/sheriff personnel whose presence is essential (including case managers, deputy clerks and bailiffs) and the media, subject to the approval of the presiding judge and subject to all available “*social distancing*” methods.
7. In addition, while in Phase 1, the only persons (other than employees) allowed entry into the courthouse itself, for in-person hearings or otherwise, are parties, attorneys, victims, witnesses, court reporter, court interpreter, court/clerk/sheriff personnel whose presence is essential (including case managers, deputy clerks and bailiffs), the media, and persons with official court business. No one shall be permitted to accompany persons who are otherwise allowed in the courthouse, and there shall be no loitering. At a minimum, and in accordance with CDC guidelines, all persons entering any public area of the courthouse, without exception, shall wear a face mask or appropriate face covering and all efforts shall be made to ensure six-feet of social distancing between all persons (with the exception of persons with children or within a single family unit). Any person, regardless of status, who is exhibiting symptoms consistent with COVID-19, or any person who has traveled or has knowingly been in contact with another person who is suffering from the effects of the COVID-19 virus, is prohibited from entering any courthouse. Court Bailiffs, local Sheriff Deputies, and employee or

contract security officers are hereby granted the authority to conduct health screens, conduct no-contact temperature checks, and enforce all social distancing guidelines and to eject persons from courtrooms, courthouses, or court facilities in accordance with this Administrative Order. (The requirements and procedures for social distancing and face masks under Phase 2 applicable to in-person court proceedings shall apply equally to Phase 1 throughout the entire courthouse, both public and private areas.)

C. **PHASE 1 - NON-ESSENTIAL OR NON-CRITICAL COURT PROCEEDINGS** – The following non-essential or non-critical court proceedings are deemed amenable to being conducted remotely during Phase 1:

1. Alternative dispute resolution proceedings;
2. Status, case management, and pretrial conferences in all case types;
3. Non-evidentiary and evidentiary motion hearings in all case types;
4. Arraignments and pleas in absentia in county court misdemeanor cases;
5. Hearings in juvenile delinquency cases;
6. Hearings in noncriminal traffic infraction cases;
7. Hearings in involuntary commitment of sexually violent predator cases;
8. Problem-solving court staffings, hearings, and wellness checks; and
9. Non-jury trials in all case types, except for:
 - Criminal cases unless the parties in such case agree to the remote conduct of a non-jury trial; or
 - Termination of parental rights or juvenile delinquency cases, unless the chief judge or the presiding judge in the case determines that the non-jury trial should proceed remotely.

D. **PHASE 1 - HANDLING OF NON-ESSENTIAL OR NON-CRITICAL PROCEEDINGS**

1. Non-essential or non-critical court proceedings shall be handled by the divisional judge, magistrate, hearing officer, or duty judge who would normally hear the matter.
2. All of the above-listed non-essential or non-critical court proceedings *shall* proceed and shall be held to the fullest extent possible.
3. In accordance with the directive of the Florida Supreme Court, each of the above-listed non-essential or non-critical proceedings *shall* be conducted using telephonic or other remote electronic means available, unless a judge determines that remote conduct of the proceeding is inconsistent with the United States or Florida Constitution, a statute or a rule of court that has not been suspended by administrative order, or would be infeasible because the court, the clerk or other participant in a proceeding lacks the technological resources necessary to conduct the proceedings, or, for reasons directly related to the state of emergency or the public health emergency, lacks the staff resources necessary to conduct the proceeding.
4. The above-listed non-essential or non-critical proceedings *shall not* be conducted through in-person hearings during Phase 1.

- E. **PHASE 1 – JURIES** - In accordance with the directives of the Florida Supreme Court, non-statewide grand jury selection and proceedings, civil jury selection and trial proceedings, and criminal jury selection and trial proceeding shall remain suspended until thirty (30) days after the circuit, or county within a circuit, has transitioned to Phase 2.

II. **PHASE 2** – Upon meeting the five (5) benchmarks established in AOSC20-32 (Amendment 3)², the courts of the Twentieth Judicial Circuit transitioned to Phase 2 effective June 1, 2020, where limited in-person contact is authorized for certain purposes and/or requires use of protective measures. To the extent possible, the courts of the Twentieth Judicial Circuit will continue to use technology, such as teleconferencing and videoconferencing, and will continue to explore additional technology to facilitate the remote conduct of proceedings as an alternative to in-person proceedings so as to limit and minimize person-to-person contact.

A. **PHASE 2 – TRANSITIONING CRITERIA – FIVE BENCHMARKS** –

In accordance with the five benchmarks established by the Florida Supreme Court in AOSC20-32 (Amendment 3), which is consistent with the criteria utilized by the White House (Opening Up America Again plan), Governor DeSantis (Re-Open Florida), the CDC, and the U.S. Courts, the following criteria shall be met prior to the Courts of the Twentieth Judicial Circuit transitioning to Phase 2.³

1. No confirmed or suspected cases of COVID-19 in the courthouse within a 14-day period; or if confirmed or suspected cases have occurred in the courthouse, deep cleaning and disinfecting of exposed areas have been completed and applicable employees have been directed to self-isolate or quarantine.

² In Amendment 8 to AOSC20-32, issued May 6, 2021, the Chief Justice made no significant changes to the benchmark criteria for transitioning from Phase 1 to Phase 2.

³ The Courts of the Twentieth Judicial Circuit met these criteria and transitioned to Phase 2 effective June 1, 2020.

Plan” for Florida’s Recovery, and on May 14, 2020, the Governor of the State of Florida issued Executive Order 20-123, bringing all Florida counties into Full Phase 1. Executive Order 20-123, bringing all Florida counties into Full Phase 1. There are currently no state or local orders that would restrict movement and there are currently no stay-at-home orders in place – CRITERIA MET.

3. Improving COVID-19 health conditions over a 14-day period in the community.⁴ To meet this benchmark, condition a) or b) below must be met:
 - a) Both of the seven-day averages for new cases for the most recent two-week period must be 20 or fewer⁵ and both of the following measures must demonstrate two consecutive weeks of decline or stabilization⁶:
 - i. The seven-day averages for hospitalizations for the most recent two-week period; and
 - ii. The seven-day averages for ED visits for the most recent two-week period.
 - b) If either of the seven-day averages for new cases for the most recent two-week period exceed 20, then both of the following criteria must be met:
 - i. The seven-day averages for new cases for the most recent two-week period must demonstrate two consecutive weeks of decline or stabilization; and
 - ii. Both of the seven-day averages for the positivity rate for the most recent two-week period must be less than 10 percent. If not, then both of these averages must be less than 11 percent and both of the following measures must demonstrate two consecutive weeks of decline or stabilization:
 - a. The seven-day averages for hospitalizations for the most recent two-week period; and
 - b. The seven-day averages for ED visits for the most recent two-week period.

To determine whether benchmark 3 continues to be met, the Trial Court Administrator for the Twentieth Judicial Circuit will review data provided by OSCA for all five (5) counties on a weekly basis and will provide

⁴ The public health data will be provided by OSCA on a weekly basis. The data will provide seven-day averages at the county level for the most recent four-week period for the following four (4) measures: (a) The daily number of new positive COVID-19 cases (“new cases”); (b) The daily percentage of positive tests based on the total number of tests (“positivity rate”); (c) The daily number of hospitalizations for COVID-19 (“hospitalizations”); and (d) The daily number of emergency department visits for COVID-like illness (“ED visits”).

⁵ Due to the lower rates of testing in smaller counties, positivity rates can be significantly increased by only one or two positive results. To account for this effect, the methodology authorizes counties having 20 or fewer new cases weekly for the most recent two-week period to consider the hospitalization and ED visit measures instead of positivity rates. Hendry and Glades counties generally qualify as smaller counties.

⁶ The phrase “two consecutive weeks of decline or stabilization” with respect to new cases, hospitalizations, and ED visits means that the measure’s seven-day average for: (a) The most recent week is lower than or equal to the seven-day average for the measure for the prior week; and (b) The prior week is lower than or equal to the seven-day average for the measure for the week that is two weeks prior to the most recent week.

recommendations based on that data to the Chief Judge for consideration as to whether any particular county should revert to Phase 1 or, alternatively, whether modifications should be made to the Operational Plan as it relates any particular county. Effective June 1, 2020, all five counties of the Twentieth Judicial Circuit proceeded to Phase 2 based upon the criteria established by the Florida Supreme Court at that time. As such, it should be presumed that each county continues to meet the criteria of benchmark 3, unless, based on the weekly data, the Chief Judge issues a written directive⁷ reflecting that a county (or counties) do not meet the criteria for benchmark 3 for that particular week, with instructions that the county (or counties) are to revert back to Phase 1 or, alternatively, are to follow specific modifications to the Operational Plan as may be outlined in the written directive.

4. Sufficient availability of COVID-19 tests to meet community needs.

¹¹ As per the CDC, people are considered fully vaccinated two weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or two weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine.

4. **Health and Safety Screening** - As per Florida Supreme Court AOSC20-32 (Amendment 8), while in Phase 2, health and safety screenings for employees or members of the public entering the courthouses within the Twentieth Judicial Circuit have been suspended.

5. **Social Distancing** – The following social distancing guidelines shall be strictly enforced during Phase 1 in all areas of the courthouse, including areas of private circulation. In Phase 2, social distancing guidelines shall be strictly enforced only during in-person court proceedings, which include the assembly of prospective jurors, voir dire, juror deliberations, and any status conference, hearing, trial, or other proceeding conducted by a judge, magistrate, or hearing officer if conducted in person.
 - a) Current CDC social distancing guidelines recommend staying at least six feet from other people.¹²
 - b) The Administrative Office of the Courts of the Twentieth Judicial Circuit will take all reasonable precautions and efforts to ensure that the CDC recommendation of maintaining six feet of social distance is enforced during in-person court proceedings.
 - c) Where practicable and appropriate, areas of the courthouse where in person court proceedings take place will be reconfigured and chairs, benches or other furniture will be removed or taped off so as to facilitate and enforce social distancing.
 - d) The galleries of all courtrooms in the Twentieth Judicial Circuit have been measured and the seating has been marked so as to ensure the required six feet of social distancing. In addition, a revised maximum capacity has been established and posted for all courtrooms and provides the maximum number of people allowed in the gallery of each courtroom at any one given time so as to allow for proper social distancing. This maximum capacity applies specifically to the gallery of each courtroom, and does not include judges, deputy clerks, bailiffs, court reporters or others within the well or bench area of the courtroom (i.e. attorneys and parties before the court at that time). The revised maximum capacities for the galleries of all courtrooms shall be strictly enforced. People scheduled to appear in person before the court may be asked to wait outside of the courtroom until their case is called.
 - e) So as to further facilitate social distancing, persons allowed in the courtrooms will be limited to those essential to the proceedings. Family members and friends who are not essential to the proceedings will not be allowed into the courtrooms.
 - f) All efforts shall be taken to schedule in-person hearings on a staggered schedule so as to avoid overcrowding in common areas such as hallways, restrooms, and elevators.

¹² Social distancing guidelines shall not be strictly applied to persons of a single family unit or household.

- g) Court Bailiffs, local Sheriff Deputies, and employee or contract security officers are hereby granted the authority to enforce all social distancing guidelines and to eject persons from courtrooms or courthouses in accordance with this Administrative Order.

6. **Hygiene Protocols and Personal Protective Equipment (PPE)**

- a) Hygiene protocols such as hand washing and covering coughs and sneezes will be encouraged.
- b) Visible signage in, at a minimum, English and Spanish and in compliance with the ADA, will be readily posted where appropriate reminding individuals of hygiene protocols, including hand washing, as well as social distancing during in-person court proceedings, directional guidance, and any changes to processes due to the pandemic.
- c) Hand sanitizer will be widely available for use throughout the courthouses, including inside courtrooms.
- d) Face masks completely covering the nose and mouth and that fit snugly around the nose, chin, and sides of the face are required for everyone during an in-person court proceeding, including judges, court staff, and employees of other agencies, with no exceptions.
- e) The Chief Judge may adopt a policy authorizing the use of clear face masks or cloth face masks that have clear plastic panels during in-person court proceedings. Like opaque face masks, clear face masks or cloth face masks that have clear plastic panels must completely cover the nose and mouth and fit snugly around the nose, chin, and sides of the face. If such a policy is adopted, it shall apply consistently across all in-person court proceedings in the same courthouse.
- f) If persons appearing during in-person court proceedings do not have a face mask or appropriate face covering, one will be provided to them at no cost, for as long as supplies last. The Administrative Office of the Courts will continue to diligently seek and procure an adequate supply of face masks, but there is much uncertainty as to the availability of all PPE. If the supply of masks has been exhausted and the person does not otherwise have a face mask, admittance will be denied to in-person court proceedings. Admittance will likewise be denied to any person who refuses to wear a face mask during in-person court proceedings.
- g) A face shield or other face covering protocol may be used in addition to a face mask but may not be used as an alternative to a face mask.
- h) To the extent that health experts have noted that proper hand hygiene is generally preferable to gloves, the wearing of protective gloves is not required within the courthouses, though it is encouraged for certain tasks requiring direct contact, such as bailiffs taking fingerprints of a defendant.

- i) CDC guidance on cleaning and disinfecting public spaces, workplaces, and other public locations shall be followed in all areas of the courthouses and court facilities publically accessible. This CDC guidance is available at: <https://www.cdc.gov/coronavirus/2019-ncov/community/reopen-guidance.html>.
7. **Judge and Court Staff Training** – To the extent that training or other technical assistance to judges and court staff is necessary on changes required by the operational plan, such training or technical assistance will be provided by the Administrative Office of the Courts.
8. **Other Building Occupants** – In establishing this Operational Plan, other building occupants and law enforcement have been consulted and are included in COVID-19 conference calls initiated by the Chief Judge.
9. **Vulnerable Populations**
 - a) Vulnerable individuals are those over age 65 and individuals with serious underlying health conditions, such as high blood pressure, chronic lung disease, diabetes, obesity, asthma, and those whose immune systems are compromised such as by chemotherapy for cancer or other conditions requiring such therapy.
 - b) If an in-person hearing is scheduled, and a person who meets the above definition of a “vulnerable individual” wishes to request an accommodation to avoid an in-person appearance, that person shall file a motion with a copy to the appropriate judicial office and all counsel or parties of record. The parties may stipulate to the granting of the motion, or a telephonic or videoconference hearing on the motion should be scheduled by the judicial office.
 - c) When feasible and where due process rights are not negatively impacted, and if good cause is shown, a motion requesting accommodations should be granted to reduce the need for vulnerable individuals to appear in-person at the courthouse.
 - d) If good cause is shown, but granting the requested accommodation is not feasible or would impact the right to due process, a non-essential or non-critical hearing should be continued. If the hearing is essential or critical, the judge and parties, with the assistance of the Administrative Office of the Courts, shall make every effort to schedule and conduct the in-person hearing in a manner so as to provide the maximum available safety precautions and social distancing, for example, providing a special set hearing, eliminating all other persons from the gallery of the courtroom, or providing a hybrid-type of accommodation.

10. Courthouse Areas and Security

a) Interior

- Only persons with scheduled proceedings will be allowed into in-person court proceedings. Family members or friends who are not essential to the proceeding or court business are strongly discouraged from entering the courthouses, and should preferably wait outside. Bringing children to the courthouses or court facilities is likewise discouraged, if possible.
- Persons with scheduled proceedings or appointments are discouraged from entering the courthouse more than ten minutes prior to their scheduled proceeding or appointment, and are encouraged to immediately exit the building upon conclusion of their scheduled proceeding or appointment or other court business.
- Physical barriers, such as sneeze guards and partitions already exist or shall be installed in spaces where an employee might come into close contact with large numbers of people, such as information desks or self-help windows.

b) Security

- Court Bailiffs, local Sheriff Deputies, and employee or contract security officers are hereby granted the authority to enforce all social distancing guidelines and the wearing of face masks in all in-person court proceedings and to eject persons from courtrooms or courthouses in accordance with this Administrative Order.

11. Cleaning and Disinfecting

- a) The Administrative Office of the Courts shall maintain a supply of hand sanitizer and disinfecting wipes and shall make them available to employees and throughout the courthouses, including courtrooms.
- b) Each county of the Twentieth Judicial Circuit has contractors to provide cleaning services to the buildings in which the courthouses are located. Those contractors are to clean and disinfect high traffic areas and frequently touched surfaces multiple times per day, including restrooms, elevators, and entry doors.
- c) Employees are encouraged to clean or disinfect shared equipment, such as copiers, before every use.
- d) Disinfecting wipes will be available in the courtrooms at counsel tables and podiums to be used by counsel or parties to clean shared surfaces.

C. PHASE 2 - PRIORITY OF NON-ESSENTIAL OR NON-CRITICAL PROCEEDINGS

– To the extent possible, during Phase 2, all essential/critical and non-essential/non-critical proceedings shall be conducted remotely via teleconferencing, videoconferencing, or other means. However, where non-essential court proceedings cannot be effectively or successfully conducted

remotely, below is the priority in which the trial court should conduct in-person or hybrid hearings.¹³ Prior to scheduling in-person non-essential or non-critical court proceedings, judges shall consult with their Administrative Judge, who shall review and coordinate the priority of requested in-person dockets within their division to avoid contemporaneous court events, minimize overcrowding, and ensure social distancing measures to the fullest extent possible.

1. **Civil**

- a) Petitions to determine incapacity and other guardianship matters.
- b) Authorized ex parte matters, e.g., administrative, emergency, or settlement matters.
- c) Cases in which a statutory timeframe may soon expire.
- d) Actions subject to summary procedure under Chapter 51, Florida Statutes.
- e) Claims of exemption from a garnishment of wages.
- f) Approvals of settlements, structured settlements (e.g., annuities), and transfers of structured settlement payment rights.

2. **Family Law/Unified Family Court**

- a) Termination of parental rights trials, advisory hearings, and dependency arraignment hearings. The presiding judge shall have discretion as to the order in which the cases are tried with considerations that include, but are not limited to, the length of time the child has been in care, the age of the child, or the number of people involved in the case.
- b) Juvenile delinquency trials. The presiding judge shall have discretion as to the order in which the cases are tried.
- c) Child Support Contempt Hearings. Efforts shall be made to limit the number of cases that are set for each docket with the appropriate amount of time set between each hearing in order to limit congestion in the courtroom or hallways.
- d) Other family law court hearings that do not use mass calendar docketing, e.g., final judgments for dissolution of marriage, name changes, adoptions, or evidentiary hearings.

3. **Criminal**¹⁴

- a) Sentencings or violation of probation or violation of community control hearings.
- b) Pleas, including out-of-custody pleas.

¹³ Each case is often unique on its own facts and, similarly, each of the proceedings listed may be qualitatively different from one case to the next. For these reasons, the priority of any given case listed herein may be dictated by factors including, but not limited to, the nature of the underlying charge, the stage of the case, or the potential consequences based on the outcome of the proceeding. Accordingly, the presiding judge shall have discretion in altering the priority of any given case listed herein based on the above referenced factors.

¹⁴The local workgroup provided recommendations as to which non-essential in-person criminal proceedings should be given the highest priority. The top three priorities should be given to: Violation of Probation Hearings, Out-of-Custody Pleas, and all Evidentiary hearings. Even though the Florida Supreme Court workgroup also created a recommended list for proceedings of medium and low importance, those proceedings are not at this time included as part of the Operation Plan for the Courts of the Twentieth Judicial Circuit for Phase 2.

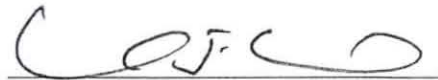

- c) Evidentiary hearings.
- d) Motions to dismiss (e.g., C4, double jeopardy, or defect).
- e) Motions related to custody (e.g., pretrial detention, non-adversarial probable cause, adversarial preliminary hearings, 33-day motions, or post-trial release).
- f) Motions to suppress, if dispositive.
- g) Motions related to evidence, if dispositive (e.g., Williams rule/sex crimes, motions in limine, or Daubert issues)
- h) Stand Your Ground hearings.
- i) Motions and hearings (except status hearings) related to incompetence, mental health experts, intellectual disability, or insanity.
- j) Motions relating to indigent for costs or to appoint mitigation experts.
- k) Jimmy Ryce Act Proceedings (except for trial proceedings)

III. GENERAL PROVISIONS

- A. All other remedial measures established by the Florida Supreme Court or by this local Administrative Order shall remain in effect until vacated or superseded by subsequent order by either this Court or the Florida Supreme Court.
- B. This fourth amended Administrative Order supersedes all prior versions of this Administrative Order and shall be effective immediately and shall remain in effect until the dates established herein or until superseded by further order of this Court or the Florida Supreme Court.
